****URGENT NOTICE****

All Norwood Light Broadband, (NLB) digital signals will be changing on Thursday April 26th, 2018. This change will necessitate that ALL TVS RECEIVING NLB TV WITHOUT A CABLE BOX, will have to perform an auto search or auto programming search to regain these channels on all TVs without a Cable Box!

This change will not affect any TVs that currently have a Cable Box attached!

This very positive change will enable both Basic & Expanded on Demand Cable channels to be viewed in High-Definition without an HD Cable Box!

Please check your owner's manual for more detailed information on Channel search options. If you can't find your owner's manual you can probably look up the brand and model of your TV online. If that doesn't work, here are some general instructions below:

{more instructions}

All TVs have different set-up functions and it is best to check your TV Owner's Manual for specific instructions.

Generic Instructions for programming your Flat Screen TV (must have a QAM tuner):

- Access the TV set menu from your television's remote control
- Go to the "Channel" or "Set-Up" mode
- Select the Auto Program or Channel Scan feature
- Choose the "Cable" setting (not antenna or Air)
- If asked, select the "STD" or Standard setting (not HRC)
- Start the scan mode

Please feel free to call customer service at 781-948-1150 if you have any questions.
